-  Rare – Once Every 1-5 Years
-  Very Rare – Once Every 5-10 Years

*Threat levels are based on FEMA Region 6 criteria. State or local threat level criteria may differ.

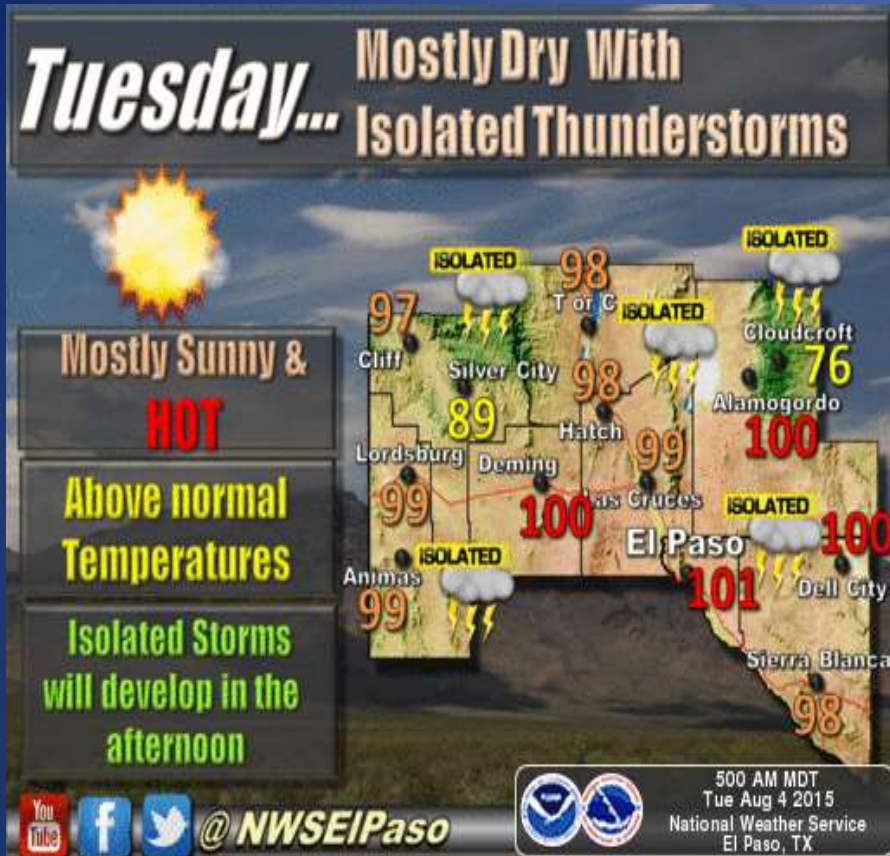

Hazardous Weather

Day 2-3 Weather Hazards

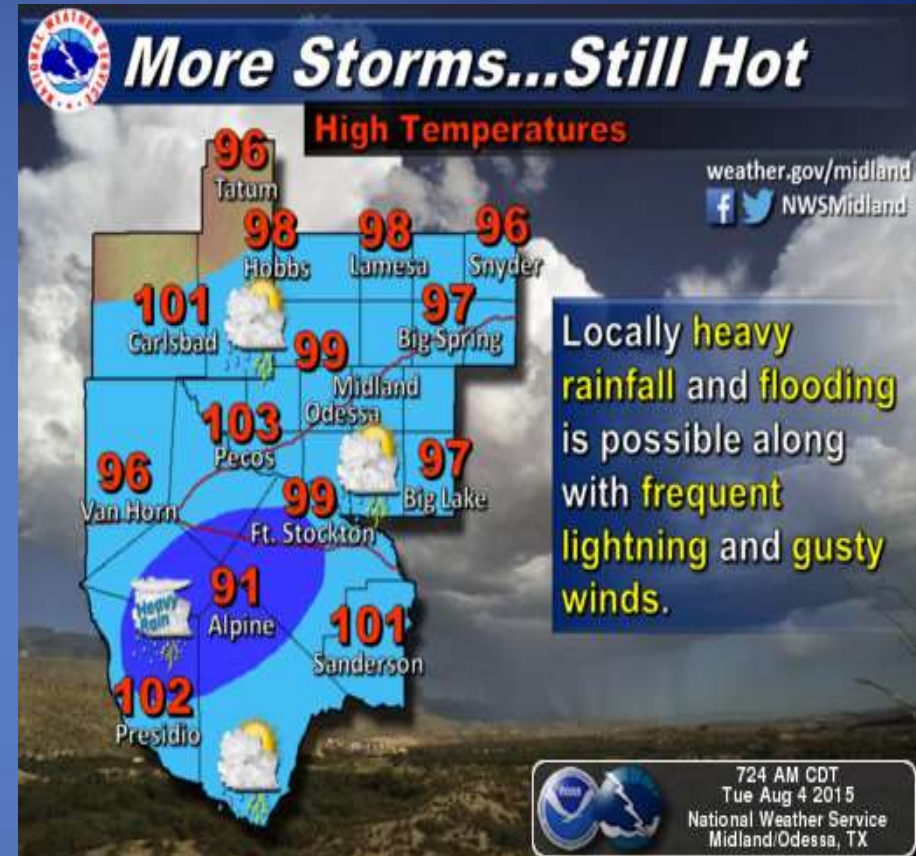

Valid: 0800 Wed - 0800 Fri

Hazardous Weather

High pressure aloft will bring hot mostly dry weather to southern New Mexico and west Texas today. However there will be sufficient moisture in the atmosphere for very isolated showers and thunderstorms with most of the storms forming over the mountains or south of Las Cruces.

Hazardous Weather

TUESDAY MORNING

Expect partly cloudy skies overnight.

Overnight lows will be in the low to mid 70s.

A few storms will be possible toward sunrise over the Big Country.

National Weather Service San Angelo, TX Updated: Aug 04 2:24AM

A few thunderstorms will be possible tonight, mainly west of a line from Big Lake, to Sweetwater, to Haskell. Otherwise, expect partly cloudy and dry conditions with overnight lows in the low to mid 70s.

Tuesday Morning...Widespread Rain in Central/Western OK
National Weather Service, Norman, OK

Overview...

A large slow moving complex of showers and thunderstorms will continue to move east and weaken this morning.

Impacts:

- Heavy rainfall up to 2 inches and localized flooding
- Strong wind gusts up to 40 mph
- Cloud to ground lightning

Hazardous Weather

Plentiful moisture will combine with daytime heating to produce isolated showers or thunderstorms today, with a slightly better chance near the Victoria area and Northeastern Coastal Bend. Maximum afternoon heat indices will range from 105 to 109 degrees inclusive, with a few locations in Western Kleberg and Southeastern Jim Wells Counties having values of 110 degrees or higher for an hour or so. Highs today will range from the lower 90s coast, 95 to 100 over areas east of highway 281, and 100 to 105 inland west. Lows tonight will be from the mid 70s to around 80. Mariners can expect South winds 5 to 10 knots becoming Southeast and increasing to near 15 knots. Seas will be 2 to 3 feet, with isolated to scattered showers and thunderstorms, mainly over the northeastern waters through mid afternoon.
